

DataMyte 600 product and End of Life policy

V2 Updated 12/06/2021

Microsoft has mandated “End of Life” for the Windows CE Core 6.0 EMB ESD OEI Core Runtime operating system that powers the DataMyte 600. Included in that mandate is that DATAMYTE, as vendors embedding the software in our products, can no longer sell any devices that run on that operating system after February 28, 2022.

The End of Windows CE – What are My Available Options?

Microsoft PN	Microsoft description	EOL	EOS
884-00306	Windows CE 5.0 EMB ESD OEI Pro Runtime	31-08-19	14-10-14
TNA-00014	Windows CE Core PLUS 5.0 EMB ESD OEI Core Plus Runtime	31-08-19	14-10-14
884-00301	Windows CE 5.0 EMB ESD OEI Pro Plus Runtime	31-08-19	14-10-14
884-00304	Windows CE Core 5.0 EMB ESD OEI Core Runtime	31-08-19	14-10-14
884-00341	Windows CE 6.0 EMB ESD OEI Pro Runtime	28-02-22	10-04-18
TNA-00004	Windows CE Core Plus 6.0 EMB ESD OEI Core Plus Runtime	28-02-22	10-04-18
ZH5-00019	Windows CE Core 6.0 EMB ESD OEI Core Runtime	28-02-22	10-04-18
884-00364	Windows Embedded Compact 7 EMB ESD OEI (C7P) Runtime	28-02-26	13-04-21
TNA-00022	Windows Embedded Compact 7 EMB ESD OEI (C7E) Runtime	28-02-26	13-04-21
T9W-00003	Windows Embedded Compact 2013 EMD ESD OEI (Entry) Runtime	31-05-28	10-10-23
TNA-00028	Windows Embedded Compact 2013 EMD ESD OEI (General Embedded) Runtime	31-05-28	10-10-23

Windows CE and Windows Embedded Compact have been popular operating systems for embedded devices for many years. As the end of support (EOS) and end of life (EOL) dates for these products approach, OEMs need to consider options for embedded operating systems in devices. It is important to consider a variety of factors as stakeholders evaluate their approach to upgrades and transitions from Windows CE and Windows Embedded Compact products.

- Microsoft will not issue any more updates to the operating system (Windows CE Core 6.0 EMB ESD OEI Core Runtime) that powers the DataMyte 600 data collector.
- These external factors may limit the use and operational duration of the DataMyte 600s
- We, DATAMYTE, will continue to provide support for your devices per an outlined schedule and under defined conditions.

End of Life Policy

ASI DATAMYTE, Inc. (“DATAMYTE”) reserves the right to discontinue hardware products or specific software versions for a variety of reasons.

Product Life Timeline

General Availability

DATAMYTE will make a product generally available to its customers. The date that the Hardware and Software becomes generally available to the public is the General Availability date.

After the General Availability of the product, DATAMYTE will provide Hardware and Software Support in accordance with the DATAMYTE Support and Maintenance Agreement contract.

End of Life (EOL) Announcement

DATAMYTE will publicly communicate to the customer base the discontinuance of the DATAMYTE Product Version in an End of Life announcement.

End of Life (EOL) Date

End of Life Date means the date when all Hardware and Software Support shall cease for a Version. DATAMYTE will cease engineering related to the Hardware or Software version and will cease providing support related to the applicable Device or Release, including root cause analysis, workarounds, servicing, repairs, and patches.

Continued Support Schedule

- Devices will be supported for 7 years, through February 28, 2029, with an active Support and Maintenance Agreement (SMA) contract at the time of service.
 - Includes repairs, maintenance, and updates
 - SMA needs to carry an active status for the duration of support

Continued Support Schedule

- Devices without active SMA contracts will be supported for 2 years, through February 28, 2024.
 - The cost of maintenance and repairs will vary based on device capabilities and availability of parts.
 - Contact customer service at Customer.Service@datamyte.com for a repair quote.

Support and Maintenance Agreement (SMA) Contracts

- SMA provides a wide variety of benefits including repair coverages, expedited servicing, and discounts on new device purchases.
- SMA should be maintained annually. For details on the pricing and benefits, please discuss with your Sales Representative.
- SMA contracts can be reinstated. Fees may apply.
- No SMA reinstatements on expired (End of Life) DataMyte 600 devices will be allowed after end of operating system life date of February 28, 2022.

Option Scenarios

Upgrade to the new technology, Revolution data collector, for long term and enhanced functionality.

- We have some aggressive discounts available for a “buy-back” program for DataMyte 600’s as well as the DataMyte 501’s.

Maintain active SMA contracts to ensure support for up to 7 years.

Proceed with discontinued Microsoft support.

- Understand while we will do our best to support your product, Microsoft is discontinuing the operating system and support of it.
- Provided that your devices continue to operate, they will be supported up through the dates as described under the **Continued Support Schedule** section, its stipulated terms, and based on parts availability.
- In the event DATAMYTE is not able to satisfy the repair, we will do our best to offer you an attractive upgrade to the Revolution.

We recommend either upgrading to the Revolution or continuing to renew your Support and Maintenance agreement for the entire duration of the product’s support.
